OUR REPUTATION talk to our former clients or ask to see the evaluations our clients have made of our services!

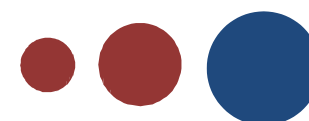

REACH

your POTENTIAL

Notch provides an integrated service to educational organizations, healthcare providers and healthcare professionals. It provides a standardized service, including the delivery of the peak quality and safety standards, allowing consumers instant and safe access to healthcare services, and implement skills assisting individuals to access education and training in a relevant and meaningful way.

We are *Committed*
to your *Success*

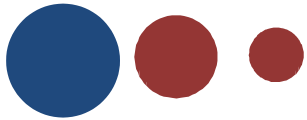

PROCES IMPROVEMENT AND COMPLIANCE

Notch works in various settings to improve the quality and value of health care. We work with health care providers to assess current practices, provide assistance with data collection and analysis, identify potential areas for improvement, support provider implementation of best practices, and encourage the use of available healthcare technology to support improvements in care.

Additionally, Notch conducts compliance reviews of health plans to determine the quality, timeliness of and access to care and service provided to the plans' members. Performance is assessed with regard to regulatory provisions and operational areas.

We have extensive experience with all components of compliance-review activities, including pre-onsite document review, onsite reviews, staff interviews, development of corrective-action plans, and follow-up.

QUALITY IMPROVEMENT

We believe you know your business best, and that our job is to bring fresh eyes and the right questions. Our quality improvement expertise will help you implement purposeful changes to processes to reliably deliver what patients need. We will assess and build on your organization's operational strengths – whether you are in the formative stages, have some good practices that need spreading, or are more advanced in meeting patient needs systematically.

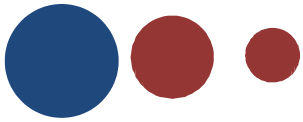

ADMINISTRATION AND OPERATIONS

Our expertise is in the Turnkey Executive Management of world-class hospitals. Working with the most seasoned hospital administrator, project planner, medical equipment procurer, developer and advisory, Notch offers customized total solutions to new and existing hospitals. We adhere to the International Standards of Clinical Practice and Medical Care. Collaborating with elite medical centers in the United States and worldwide, we develop models of care that are “state-of-the-art” and dedicated to patient safety and quality outcomes.

Our quality and patient safety framework empowers hospitals in the network with the ability to implement, monitor, and evaluate procedures and systems by adopting methodologies for continuous quality improvement and international patient safety standards.

HOSPITAL RISK MANAGEMENT

Our risk management services are built around three guiding principles: understanding our customers' needs, building solid relationships and exemplifying professionalism.

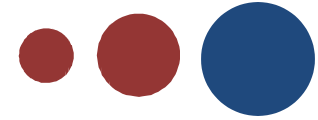

Our risk consultants meet with our customers to develop a risk management service plan. Services provided may include:

- Risk assessment and consultative services
- Assessment of organization's risk management program
- Focused risk assessments of specific clinical areas, locations or policies/procedures
- Research and consultative advice on specific risk management issues
